PROCEDURE

2 Hours

Wrap-Up

Mutual discussion of the lessons
learned and results.
Define next steps.

3 Days PoC

2,5 Days

Automation

Automation of the YOUR processes by
YOUR staff.

2 Hours

Kickoff

Kickoff as well as a short introduction in
test automation and suxxesso Tool Suite.

Preparation

2 weeks prior to PoC

Pre-PoC Call

Appointment together to define goals and content (processes).

Clarify technical as well as organisational requirements.

Checklist PoC
ORGANISATIONAL

✓ Individual test cases with description

✓ Client list of participants

✓ Making relevant experts from the involved departments available for setting up the test cases

✓ Provied rooms / virtual meeting rooms
(optimal: with transfer of control to suxxesso)

✓ Confidentiality Agreement / NDA

Checklist PoC
TECHNIAL

✓ Set the profile parameter sapgui / user_scripting to TRUE on the SAP server (transaction RZ10 / RZ11)

✓ Installation of suxxesso Tool Suite (v 6.2.1) und Codemeter (>= 7.40) on the participants' machines and on the Server
  - If installation is to be carried out with the support of suxxesso - local admin rights are required on the client system

✓ Installation of License Server (3 Options)
  1. Use suxxesso Demo-License Server (accessible through https) – must be accessible via the Internet
  2. Use of own license server (very low hardware requirements, does not have to be a separate physical server) - all clients must be in the same network - enable incoming TCP port 22350 on the server firewall
  3. Set up one of the Client's PCs as a temporary license server

✓ Installation of the RFC Module (Import Transport)
  - Installation manual
  - Provide permissions for the Users, with which the RFC module connects

✓ Minimum SAP GUI Version 7700 PL3 resp. UI5 Version 1.82.0
  - Connection to SAP established in SAP GUI/ UI5
